

# ROHIT PARIT

## Java Developer | Full Stack Applications

+91 9810167696 rohitparit1934@gmail.com [LinkedIn](#), [Github](#), [Portfolio](#) New Delhi

### SUMMARY

A strong foundation in Java development and a commitment to enhancing system security and efficiency have been demonstrated through diverse project work and practical experience in software development. Passion for building robust applications aligns with the focus on creating impactful solutions. Enthusiasm for contributing to a mission that emphasizes innovation and excellence in technology solutions is evident, and eagerness to engage with challenging projects is clear.

### EDUCATION

#### Bachelor of Computer Application

GURU GOBIND SINGH INDERPRASTHA UNIVERSITY

DELHI, IN

11/2022 - 07/2025

#### Master Of Computer Application

MANIPAL UNIVERSITY

JAIPUR, IN

07/2025 - Present

### EXPERIENCE

#### Backend Java Developer

Debound

Worked at Debound, handling a key project to migrate Bank of Maharashtra's system from PHP to Java.

- Enhanced efficiency by developing Java applications and creating REST APIs.

11/2025 - Present

#### Full Stack Developer

GNEXT

Work With Team to Create Physiotherapy Booking System for Abhaile Physiotherapy.

- Developed a PHP application designing end-to-end from scratch.

07/2025 - 10/2025

#### Software Development Engineer

Bluestock Fintech

A fintech company providing innovative financial solutions

- Focused on Java as the primary programming language, emphasizing security and the addition of new features.

05/2025 - 07/2025

### PROJECTS

#### GOLD LOAN BACKEND

A system for managing gold loans with security features

- Implemented a Gold Loan Management System, increasing security through role-based access control using Spring Boot.
- Architected service layer ensuring service communication, separation of concerns, and application maintainability.

#### SMART SPILT

Smart Split is a group expense management system that calculates shared costs and minimizes settlements using an optimized debt-simplification algorithm.

- Eliminates circular debts to reduce total transactions.
- Generates clear, optimized settlement results for groups.

### SKILLS

#### Backend / Frameworks

Spring Boot, Spring MVC, Spring Data JPA, REST APIs, Microservices Architecture, Servlet, Spring Security (RBAC), JWT Authentication

#### Version Control

Git, GitHub

#### Testing & Debugging

JUnit, Mockito, Postman

#### Databases & DevOps Tools

MySQL, PostgreSQL, Kafka, Docker, Swagger, CI/CD, Flyway, AWS S3, AWS EC2

#### Programming Languages

Java, JS, C++

### TRAINING / COURSES

#### Java Programming

Indian Institute of Information Technology Allahabad

#### Introduction to Software Engineering

IBM

#### Java Programming for Beginners

IBM

#### Java Backend Development

GeeksforGeeks

### KEY ACHIEVEMENTS

#### Achievements

Solved 160+ Questions on LeetCode, showcasing problem-solving skills and coding proficiency

#### Hackathon Participation

Participation in hackathons, demonstrating teamwork and innovation skills
