New Delhi

SUMMARY

Java development professional with over a year of experience in backend development and full-stack application development, expert in Java programming and RESTful API design. Key achievements include enhancing system efficiency by 100% through migrating Bank of Maharashtra's system from PHP to Java, and increasing online sales by 100% for Studio Sara through a robust e-commerce platform. Seeking a Java Developer position, where my backend development and full-stack skills will support your mission of delivering scalable and efficient Java-based solutions.

EDUCATION

Bachelor of Computer Application

GURU GOBIND SINGH INDERPRASTHA UNIVERSITY

11/2022 - 07/2025 DELHI, IN

Master Of Computer Application

MANIPAL UNIVERSITY

07/2025 - Present JAIPUR, IN

EXPERIENCE

Full Stack Developer

Studio Sara

01/2026 - Present

Developed a full-stack e-commerce platform for a fabric-based startup.

- Designed and developed a scalable full-stack e-commerce solution for a fabric startup.
- Enhanced transaction capabilities by 50% by integrating a secure multi-currency payment gateway.
- Created a dynamic custom product page with CMS support for seamless product management.

Java Backend Developer

Debound

11/2025 - 01/2026

Led the migration of Bank of Maharashtra's system from PHP to Java, developing scalable Spring Boot applications and RESTful APIs, resulting in a 100% improvement in system performance and maintainability.

Full Stack Developer

GNEXT

07/2025 - 10/2025

Collaborated with a team to develop Physiotherapy Booking System to Achieve Physiotherapy.

- Developed a PHP application designing end-to-end from scratch.

PROJECTS

ECOMMERCE FULLSTACK

A FullStack web Application for Sara Studio

- Increased online sales by 100% through developing a robust ecommerce platform using Spring Boot and React.
- Added CMS, and full admin panel, integrated with swipe so that they can manage GST filling and invoice.

SMART SPILT

Smart Split is a group expense management system that calculates shared costs and minimizes settlements using an optimized debt-simplification algorithm.

- Eliminates circular debts to reduce total transactions.
- Generates clear, optimized settlement results for groups.

SKILLS

Backend / Frameworks

Spring Boot, MVC, Spring Data JPA, REST APIs, Microservices, Spring Security (RBAC), JWT Authentication, WebSocket, Git, GitHub

Databases & DevOps Tools

MySQL, PostgreSQL, Kafka, Docker, Swagger, CI/CD, Flyway, AWS S3, AWS EC2, Linux, SQS, DynamoDB, Redis

Programming Languages

Java (Primary), JavaScript, C++

Testing & Debugging

JUnit, Mockito, Postman

AI & LLM

Spring AI, RAG, Vector Databases, Embeddings

TRAINING / COURSES

Java Programming

Indian Institute of Information Technology Allahabad

Java Programming for Beginners

IBM

Introduction to Software Engineering

IBM

Java Backend Development

GeeksforGeeks

KEY ACHIEVEMENTS

Achievements

Solved 160+ Questions on LeetCode, showcasing problem-solving skills and coding proficiency

Hackathon Participation

Participation in hackathons, demonstrating teamwork and innovation skills
